Caller Sheet

Rosa's Birthday Bingo

CELEBRATING ROSA

From everyone at Friday supper

For the caller

Read the calls in order, from the top. They're already shuffled. After each one, give everyone a moment to guess, then say the answer and mark its circle. Players mark that square if it's on their card. The first to get five in a row calls Bingo: check their squares against your circles. More than one at once? They all win. Then keep going for the next winner. For another round, read the calls from the bottom up.
